

CS80 Fire Exit Security Door

Provides extra security to a fire exit door.
Provides Security and Ventilation when Fire Exit door open in warm weather.

The Problem

- Many Fire Exit doors not very strong
- Glass panels in doors broken allowing panic bar to be operated, and door opened.
- Fire Exit doors opened in warm weather can attract Sneak-In Burglaries.

The Solution

- Fitted internally provides extra security
- Thumb turn keyless emergency release, which can only be operated from inside.
- Folds back, and hinges 90 degrees to fold flat against the wall, without restricting the width of opening.

SECURITY INDICATOR = MEDIUM/HIGH

Product Benefits

- Tight diamonds prevents hands getting through the grille to operate the keyless lock.
- Fully adjustable grille to required width
- Trackless product gives clear opening
- Powder Coated White.
- Available in 3 widths:
1010, 1330 & 1650 mms
- Standard 2 metres high
– can be cut down to 1600 mms

Applications

- Securing emergency exit doors
- Vulnerable glass door entrances.
